INTERLAM

- **Art Diffusion / Elements / Mirage**

- CNC routed MDF panels
- Standard size 4'x8', custom sizes available
- 200+ patterns available, custom patterns available
- Patterns will flow from panel to panel
- Painted finishes and Membrane/foil finishes available
- Lead time 3-4 weeks for finished panels
- Prices range \$20-\$40 per square foot

- **Screens**

- CNC routed MDF panels
- 40 screen patterns available, custom patterns available
- Standard size 4'x8', limited custom sizes available (check with reps when specifying)
- Painted finishes available on some of the patterns
- Available substrates: Standard MDF, ForesCOLOR (colored MDF)
- Lead time: 1-2 weeks for screens in ForesCOLOR or 3-4 weeks for painted screens
- Price range \$21-\$52 per square foot

- **Metal Screens**

- Laser Cut mild steel screens
- Powder Coat finish available
- Any size up to 4'x10'
- Holes for hardware can be pre-drilled
- Can be used indoors or outdoors
- Lead time 5-6 weeks
- Price range \$18-\$36 per square foot

- **Super Rock**

- Gypsum based molded/cast panels
- Only available unfinished
- Used for seamless installation (hang panels, putty seams, sand/prime/paint in the field)
- Stocked item, typically no lead time
- 4'x4' panels are \$18 per square foot
- Box sets range in price \$12-\$20 per square foot

- **Motion I / Motion II / Metal Motion**

- Textured/embossed natural wood veneers, reconstituted wood veneers, or paintable melamine surfaces
- Also available in thin aluminum – white, chrome, or copper finish (Ripple pattern only)
- 4'x8' only
- Motion I: 1.2mm thickness or 4mm thickness
- Motion II: 4mm-5mm thickness only
- 41 available patterns, no custom patterns

- Available unfinished or with a painted finish; available in 3 metal finishes
- Stocked item, typically no lead time
- Price range \$4-\$12 per square foot
- **Titan**
 - Solid surface material
 - Poured/cast into mold
 - 9 available patterns, custom patterns not available
 - Can be used indoors or outdoors
 - Used as backsplash (20"x10')
 - Full shower kit (3 textured walls, pan floor)
 - 5'x8' panels available (pattern will not flow from panel to panel)
 - Apply with mastic/adhesive
 - Stocked item, typically no lead time
 - \$13 per square foot
- **Micro Thin Slate**
 - Real Slate veneer
 - 9 colors available, no custom colors
 - Can be used indoors or outdoors
 - 2'x4' panels
 - Apply with mastic/adhesive that dries clear, not white
 - Stocked item, typically no lead time
 - \$6 per square foot
- **Barnwood**
 - Real reclaimed wood sliced into veneers; also available on 4mm phenolic backer
 - 5 colors available, no custom colors
 - Unfinished only
 - 4'x8' only
 - Stocked item, typically no lead time
 - \$5 per square foot
- **ForesCOLOR**
 - Through colored MDF
 - Dyed at fiber level before pressed into boards
 - 4'x8', ¾" thick, other thicknesses available
 - Nine available colors: black, dark grey, light grey, brown, red, blue, yellow, green, orange
 - No custom colors
 - 30% stronger than standard MDF
 - Great building material (tables, cubbies, cabinets, etc)
 - Stocked item, typically no lead time
 - \$3.62 per square foot

LAB DESIGN LAMINATE started by Interlam owner with partner. Jessica and Shannon are NE Factory Reps, Surface Materials is NE Distributor. Jessica and Shannon work with Surface Materials reps to cover New England. This laminate line is available in Interlam's custom glass or Acoustical Art Concepts Akupanel and Akuplanks.

- Abstracts
- Premium Woodgrains
- Synchro Woodgrains (texture synced with printed woodgrain)
- Ultra Matte (no finger prints)

- High Resolution Digital collection
- Le Naturale Wood Collection
- Eclipse (white/black patterns with textures)
- Extended Life Series
- Metallic Laminates
- Highlights Textured Pastels
- Solid Phenolic Tops
 - Beautiful, durable surface
 - Colorfast
 - Easy to clean
 - Scratch, heat, UV, chemical, rot resistant
 - 3 colors available in 55"x165", others are 4'x8' or 4'x10'
 - Available in 8 colors

SPECIFIED METALS started by Interlam owner

- Textured Foil Metal Laminates
 - 3 metal finishes for each pattern
 - Stocked item
- Digital Infusion
 - 4'x8' sheets of aluminum
 - High definition digital print process to infuse images onto metal
 - Fade and scratch resistant
 - Stock images or send your custom images
 - Images can span across many sheets
- Etched Stainless
 - Sold 4'x8' sheets of stainless steel with a design etched into the plate
- Pure Metals
 - 4'x8' sold sheets of aluminum
 - 10 available finishes
 - Bendable

ACOUSTICAL ART CONCEPTS started by Interlam owner. Acoustical wall and ceiling panels using PET polyester fiber material available in 9 colors (black, white, red, yellow, charcoal, marble grey, royal blue, spring green, orange) using 50% recycled water bottles and are 100% recyclable.

- Akupanel & Akuplanks Systems
 - Class A fire rated PET material
 - Decorative face: Seven standard wood veneers or any Lab Design laminate or any Specified Metal laminate
 - 2'x8' panels (23 5/8" x 94 1/2" x 13/16")
 - 27 lbs per panel
 - Stocked item (1-2 weeks lead time for custom pieces)
 - \$18 per square foot
- Resonance Acoustic
 - Class A Fire rated PET material, 9 available colors
 - Full 4'x8' panel weights 9lbs
 - Can be used for Embossed Tiles, Screens, Inserts, Inlays, V-Carved, & Baffle Clusters

- Resonance Embossed
 - Class A fire rated PET material, 9 available colors
 - Standard size 24"x24" or Any size up to 4'x8' (small fee for custom sizes), 9mm thickness
 - Stocked item (1-2 weeks lead time for custom pieces)
 - \$7.50 per square foot for embossed only, \$10.50/sf for printed and embossed panels

- Resonance Art
 - Class A fire rated PET material, 9 available colors
 - Custom printed - images we own or custom images/logos/photo
 - Full 4'x8' panels or custom sizes, 9mm thickness
 - 1-2 weeks lead time
 - \$7.50 per square foot

- Resonance Inlay
 - Class A fire rated PET material, 9 available colors
 - 18mm Forescolor cut into a screen design, cutouts are inlaid with shaped PET pieces
 - Overall look for screen design and inlay tiles are customizable
 - Inserts can use multiple colors
 - 1-2 weeks lead time
 - \$22 per square foot

- Resonance One
 - Class A fire rated PET material, 9 available colors
 - Panel consists of a 9mm Resonance Screen with PET inserts
 - White PET inserts can be printed on prior to cutting. This option will add \$3.50/sf to base cost (edges will remain white)
 - Full 4'x8' panels
 - 1-2 weeks lead time
 - \$22 per square foot

- Resonance Two
 - Class A fire rated PET material, 9 available colors
 - Panel consists of 9mm Resonance screen overlaid and glued to a solid color or printed PET panel
 - If the "screen" is also printed, add \$3.50/sf to the base cost
 - 1-2 weeks lead time
 - \$19 per square foot

- Resonance Screens
 - Class A fire rated PET material, 9 available colors
 - Screens created using on PET panel with a through-cut design. No inlays or layers
 - 1-2 weeks lead time
 - \$15-\$20 per square foot

- Resonance V-Carved
 - Class A fire rated PET material, 9 available colors
 - All PET colors available
 - Printed Designs will add \$3.50/sf to base cost. Please note that edges will remain white
 - Pattern carved off surface of PET material to expose original color
 - 1-2 weeks lead time
 - Pricing TBD – depending on pattern and machine time

- Resonance Baffles & Baffle Clusters
 - Pricing TBD—depending on size of panels and cluster quantity
